

**\$30,000 HAUL MADE
BY BOLD BANDITS****PALMY DAYS OF THE JAMES
GANG REVIVED.**

Masked Robbers Ride Into Rainy City, Minn., and Loot a Bank—\$30,000 Carried Off—Citizens Too Terrified To Offer Resistance and the Men Get Away.

Lower, Minn., June 22.—A messenger came in from Rainy Lake City last night and told of the robbery of the Bank of Rainy Lake City, on the Canadian border, late Thursday afternoon. Two masked men, after holding up and knocking senseless the cashier, bound him and robbed the bank of some \$30,000, after which they made their escape.

Cashier Johnson was alone in the bank just before closing time. Suddenly two masked men appeared, and rushed behind the counter with revolvers in their hands. The cashier made a jump for his gun, but before he could reach it one of the robbers was upon him. Then followed a desperate struggle, during which the masked men shot twice at Cashier Johnson, who was all the time struggling to get where he could reach his revolver. Just as he was within a foot of the drawer where it lay, the second robber came to the aid of his companion, and dealt the cashier several blows on the head with his gun.

Mr. Johnson struggled for a few moments longer, and then, becoming weak from the blows, and seeing that it would only be courting death to make any more fight, gave up. As he sank to the floor one of the men struck him a heavy blow in the face, rendering him unconscious. When Johnson regained his senses, shortly afterward, he found himself bound hand and foot and lying under the counter.

The robbers, who still wore their masks, locked the door, as several people had been attracted by the gun shots, and proceeded to go through the vault, the inner door of which was locked. They demanded that Mr. Johnson open this. He refused, hoping to gain time, in order that the citizens might come to the rescue. His refusal angered the robbers, and one of them kicked him in the side several times as he lay on the floor.

By this time there was a large crowd outside the bank. The robbers hurriedly fled the front part of the safe with powder and touched it off, blowing the safe to pieces, and scattering the silver coins all over the place. The packages of bills were all wrapped up in paper, and for that reason were not injured. These packages, the contents, amounting in all to almost \$30,000, the robbers hurriedly stowed away in their pockets, and with drawn guns made a dash for the street.

The bluff the bandits put up staggered the spectators and for a moment no one was capable of making a move. By the time the people regained their nerve the robbers had escaped, and when search for them was made no trace could be found.

A posse was at once formed and is now scouring the whole country for them. Telegrams have been sent in every direction to arrest the men, whose description has been given. It is believed that the men have headed for the Lake Superior country in order to get on some passing steamer.

Mr. Johnson, while badly bruised up, is not dangerously hurt.

Steel Men Meet in New York.

New York, June 22.—A number of prominent steel men were in consultation at the Holland House yesterday. The proceedings were secret and there was an evident disinclination among those who were present to talk for publication. It was said the meeting was not to discuss prices, but was merely to consider the general steel situation and plans for its improvement. Nevertheless rumors were afloat that prices were talked of and that a uniform price of \$24 per ton for standard steel rails was agreed on.

Hailstorm in Minnesota.

St. Paul, Minn., June 22.—A great hailstorm swept a portion of Otter Tail county last night, ruining the wheat on a strip two miles wide and ten miles long. The grain was just heading out and will probably be nearly a total loss. A Morris (Minn.) special says a destructive hailstorm struck the southern part of Stevens county last night, doing much damage in the towns of Horton, Synnes and Dannen. The crops on a strip of land one mile wide and six miles long were wiped out, about 2,000 acres of grain being destroyed.

TO CALL THE CONVENTION.

Demands of Missouri Free Silver Men Compiled With.

St. Louis, Mo., June 22.—The conference of the representatives of the largest Democratic counties in the state at the Laclede Hotel Thursday night adopted resolutions which, coupled with the promise made by C. C. Moffit, chairman of the Democratic State Central Committee, assures a state convention on the silver question. Mr. Moffit declared he would call a meeting of the state committee if either a majority of the members of the state committee or a majority of the chairmen of the Democratic county committees of the state requested him to do so. This proposition was satisfactory and at the conference Thursday of chairmen of the counties representing the big Democratic majorities it was agreed to proceed at once to secure the signatures of a majority of the county chairmen in a call to Mr. Moffit, asking for a meeting of the state committee. The administration forces will make a fight on the proposition to hold the convention.

FACTS ARE TWISTED.

Mora Claim Affair Is Grossly Misrepresented.

Washington, June 22.—The dispatch which purports to have been sent from Washington to the effect that Secretary Olney, the very day that he entered upon the duties of secretary of state, sent an imperative demand to the Spanish government that the claim, known for a quarter of a century to those who have been compelled to watch its devious, if not dubious, history as the Mora claim, is to be taken with much allowance. It can be definitely stated that Secretary Olney has made no such demand. Consequently the conclusions as to what is likely to happen, or what may happen, if the Spanish government shall not at once send to the state department a certified check for \$1,500,000 in payment of this claim, fall to the ground.

The Scotch-Irish Congress.

Lexington, Va., June 22.—The second day's session of the seventh annual congress of the Scotch-Irish Society of America was held in the chapel of the University of Washington and Lee. At the business session Robert Bonner, of New York, was elected president. Harrisburg, Pa., Denver and other points are after the next place of meeting.

Want a Silver Convention.

Los Angeles, Cal., June 22.—F. H. Gould, chairman of the Democratic State Committee, has been requested to call a state convention to give party expression on the silver question. He is in doubt as to the propriety of calling that body together. Before doing so he will consult some of the leaders of the party.

Hill to Be Moved To-Day.

Washington, June 22.—Representative Hill, of Illinois, who has been lying ill at his home in this city for several months past, will be removed to a cottage at Narragansett Pier to-day, if his condition is such as to permit the journey without fear of any bad effect on his health.

Defalcation Is \$500,000.

Tegucigalpa, Honduras, June 22.—The alleged defalcation of ex-President Bogran is reported to reach over \$500,000. Legal proceedings against him will continue. Senator Bogran's friends deny any speculations. They say unimportant clerical errors may be found in his accounts, but nothing more.

Starved to Death.

Jeffersonville, Ind., June 22.—Nelson Morton, residing by himself in New Albany, was confined to his bed by rheumatism, and died from actual starvation last night. When accidentally found by a neighbor he was almost wasted to a skeleton. Not a scrap of food or drop of water was in the house.

**BRITISH CABINET
HAS NOT RESIGNED****MEETING THIS MORNING DEVELOPED NO ACTION.**

Another Session Will Be Held Tonight Which May Develop That Result—Lord Roseberry To Dine With The Queen This Evening at Windsor Castle.

London, June 22.—The cabinet met this morning but did not decide to resign. Another meeting will be held late this evening at which the step may be decided upon. Roseberry dines with the queen at Windsor tonight.

London, July 22.—The defeat of the government in the House of Commons last evening has occasioned a serious crisis and may result in the dissolution of Parliament. It was quite unexpected, as it seemed as if the sitting would be devoted to a humdrum discussion on the army estimates. The motion was that the war secretary's salary should be reduced by \$500 because he declined to state the quantity of reserve ammunition at the command of the war department in case of emergency. The announcement of the figures of the vote was received with great applause by the opposition. The war secretary, Mr. Campbell-Bannerman, instantly wrote out his resignation, which he forwarded to the prime minister to hand to the queen.

An informal cabinet council was hurriedly summoned, but no decision was arrived at as to whether the government should dissolve or ignore the defeat as being the result of a scratch vote. The general belief expressed is that the defeat of the government means a crisis. The cabinet is now sitting and it is believed that the ministers will decide upon a dissolution at the earliest possible moment.

To Reorganize Mexican Army.

Mexico City, Mexico, June 22.—The Mexican military commission that is sitting at present in Berlin, presided over by Gen. Francisco Zimena, will soon complete its labors and return to this city. There will be recommended a reorganization of the Mexican army, with Gen. Perez in charge of the artillery bureau and Gen. Delgado in charge of that of the army and navy engineering bureau. The cavalry is to be raised to the rank of that of European armies, with a competent tactical staff at its head.

Amateur Actor Stabbed.

Montreal, Que., June 22.—Ovide Lorrain, a boy aged sixteen, was stabbed to death during the progress of a dramatic entertainment at Champlain school. He took the part of the brigand in a play entitled "The Young Captives." M. Desjardins, about the same age, accidentally stuck a dagger into Lorrain's neck while taking part in a fight with brigands. The jugular vein was severed and the victim only lived long enough to receive the last rites of the church.

BUSINESS KEEPS UP ALL OVER.

R. J. Dun & Co.'s Report Says That Things Are in Satisfactory Condition.

New York, June 22.—R. J. Dun & Co.'s Weekly Review of Trade says: "From all parts of the United States the best advice obtainable tell of a rising tide of trade and industry which threatens here and there to mount too far and too fast. The volume of all business is by no means equal to that of 1892 as yet, though in some important branches larger than in that or any other year. Two influences of tremendous power contribute to the rise—encouraging crop news and confident replenishing of stocks, which have been for two years depleted to the utmost.

"Excepting too heavy rains in Texas, crop reports this week have been highly encouraging. Future injury to cotton cannot be predicted, but as yet nothing indicates a yield below 7,500,000 bales, which is not supposed to threaten famine if the commercial and mill stocks are remembered, now exceeding by 2,500,000 bales a full consumption until September 1. Receipts continue small and consumption close to the maximum here and abroad, though the marketing of British goods is not entirely encouraging. Liberal purchases of all products by the south do not indicate belief that any serious misfortune impends.

"Reports from spring wheat states and from the Pacific coast are cheering, although the loss of winter wheat was large there, and those whose estimates have been most accurate in recent years now vary in predictions from 430,000,000 to 470,000,000 bushels. Atlantic exports for three weeks, flour included, have been only 3,753,718 bushels, against 6,006,232 last year, indicating no urgent demand at current prices. There has been a fall of 6 cents in wheat, with heavier sales for three weeks.

"The rush for supplies in iron and steel resembles a 'bear panic' in the stock market. Because prices are mounting higher, everybody rushes to buy, so that they mount higher. It is undeniable that works in operation are crowded with orders, and others who have been idle for years are preparing to resume.

"Failures for the week have been 223 in the United States, against 214 last year, and thirty-one in Canada, against thirty-five last year."

Wisconsin Cattle Diseased.

Milwaukee, Wis., June 22.—State Veterinarian Joseph L. Scott, of Beaver Dam says there exists a great deal of disease among horses and cattle in the state at the present time. Washington, June 22.—Minister Dupuy de Lome, of Spain, yesterday received an official telegram from General Arderus at Havana, saying that

FIREBUGS CONFESS.

Organized Gang Has Been Operating in New York City.

New York, June 22.—As the result of investigation made during the last few weeks much evidence has been accumulated tending to show the existence of a gigantic conspiracy to burn houses, to defraud insurance companies, and to divide the insurance money. On the confession of one of the chief instruments in the conspiracy, corroborated by documentary and other evidence, it would appear that for five years or more a combination of fire insurance adjusters, public fire adjusters, a policeman, attaches of the fire marshal's office, and hired incendiaries have made a business of setting fires, and have thrived on the proceeds. They did not content themselves with setting such fires as came in their way. One or more of their men drummed up trade as commercial travelers would. They went to merchants in this city and Brooklyn, coldly set forth the advantages of a fire, and offered for signature a contract stating the percentage of insurance money they should receive for their trouble. It is confessed that as the direct result of the operations of these conspirators seventy-five fires have been deliberately set within the last two years, and the insurance companies have thereby been swindled out of nearly \$1,000,000.

Wichita Free Silver League.

Wichita, Kan., June 22.—Fifteen hundred people met in the Auditorium here last night and organized a nonpartisan 13 to 1 Free Silver League. The feature of the meeting was the declaration of Colonel Hollowell that the platform adopted at the recent republican county convention was written and sent here by the enemies of free silver for adoption. Colonel Hollowell is a republican and was the nominee for congress four years ago.

Lynching in Mississippi.

Port Gibson, Miss., June 22.—James Saunders (colored) was hanged last night about twelve miles from here by a mob. He was caught in a compromising position with his own daughter.

REPUBLICAN CLUBS ADJOURN.

The Money Question Is Left To The National Convention.

Cleveland, O., June 22.—The third and closing day's session of the Republican National League's annual convention yesterday found the delegates harmonious as well as weary.

While exhausting all other means to prevent the silver men from offering a minority report and carrying the fight into the convention, it was found to be unconstitutional for the National League of Republican Clubs to make any declaration of principles that would affect the party and the Patton substitute for all such resolutions was agreed upon as an ultimate way out of the dilemma. While many were dissatisfied both with the plan to ignore the silver question and also with the substitute, which ignored all questions in order to ignore silver, yet it was generally understood that it would be out of order to say anything or do anything that would reopen the old agitation. It was therefore settled that the report of the committee on resolutions was to be adopted without debate and the contest was limited to the selection of a secretary to succeed A. B. Humphrey.

The assembling of the convention was delayed till almost noon by the meetings of the officers of state leagues, the new executive board, the committee on league work, and other organizations engaged in routine business. The old executive committee was also engaged during the forenoon closing up its business. The Pennsylvania delegation held a meeting and decided to stand by the platform as reported by the committee on resolutions. This action had its effect on the New Yorkers and others who were inclined to fight the Patton substitute.

The following names were then announced for the ballot for secretary: John F. Byrns, Colorado; W. G. Eden, Illinois; T. E. Walker, Nebraska; M. J. Dowling, Minnesota. Before the result of the ballot was announced changes were made from Byrns and Eden to M. J. Dowling, and the latter's election was made unanimous without a count.

The committee on resolutions reported the following, which was adopted without debate:

"Whereas, This convention has not been authorized or directed by the republicans of the country to formulate or announce a platform for the republican party, the national convention of the party being invested with sole and exclusive jurisdiction to nominate candidates and determine the party position on public questions; therefore be it

"Resolved, That as republicans possessing full confidence in the wisdom and patriotism of our party, we disclaim jurisdiction to formulate a national platform for the party and all resolutions presented are respectfully referred to the national convention of 1896, with the confident belief that such convention will present to the republicans of the nation a declaration of principles destined to secure the best possible administration of government and the highest obtainable prosperity of the people."

This ended all the silver agitation and the agreement of the contending factions to have no financial fight on the floor of the convention was carried through. The result was greeted with applause.

Most of the delegates left last night. Some remained over to be present at the informal reception tendered to Gov. McKinley at the Hollenden. Gov. McKinley was escorted from the depot to the hotel by the Tippecanoe Club of this city. He shook hands with about 2,000 citizens and delegates, but did not make a speech.

Iron Hall Officers Are Freed.

Philadelphia, Pa., June 22.—The case against the officers of the Order of the Iron Hall was called yesterday in the Court of Quarter Sessions. District Attorney Graham, after a jury had been impaneled, stated to the court that the men on trial had been indicted for placing \$200,000 of the Iron Hall money into the Mutual Trust Company, of Philadelphia, of which they were also officers and directors. He asked that a verdict of not guilty be returned, because from an examination of the records he was satisfied that the men indicted had acted with due authority and could not be criminally prosecuted. Judge Arnold instructed the jury to render a verdict in accordance with the district attorney's statement.

May Keep Bollin in Office.

Omaha, Neb., June 22.—The full amount of City Treasurer Bollin's shortage is not yet known, and will not be before next week. It will be something over \$5,000. Owing to the chaotic state of affairs in the department, nothing but the final result of the examination can establish the full extent of the depredations in the public treasury, and most of the city officers, as well as the bondsmen, are in favor of delaying action until the precise situation is known. Some of Bollin's friends are endeavoring to patch up the affair so that he may be retained in office by paying up the deficiency.

EVIDENCE IN SCOTT CASE.

Eight-Year-Old Daughter Tells of the Murdered Ex-Treasurer's Capture.

Butte, Neb., June 22.—When court convened yesterday the state called Fannie Scott, the eight-year-old daughter of the murdered ex-treasurer, to the stand. She described in her own language the capture of the party at Parker postoffice and said she had since seen one of the men who was in the crowd which surrounded the buggy at their home in O'Neill. The man she saw at O'Neill was dressed the same and had eyes like the man at Parker's. The physician who conducted the post-mortem examination on the body testified as to the condition of the body and the marks on the neck of the murdered man. From the condition of the rope about the neck his opinion was that death had been caused from strangulation, but thought the position of the rope did not indicate that the body had been suspended.

CAPT. HOWGATE GUILTY.

Convicted on Indictments for Forgery and Falsification of Accounts.

Washington, June 22.—The Howgate jury yesterday brought in a verdict of guilty on each indictment, one indictment being for forgery and one for falsification of accounts. The jury added a recommendation to mercy. An appeal on a bill of exceptions has been taken to the District Court of Appeals and probably will come up in September. Capt. Henry Howgate was charged with forgery and embezzlement from the government while in the signal-service bureau.

Kansas Crop Prospects Excellent.

Topeka, Kan., June 22.—Secretary Coburn, of the State Agricultural Board, issued his report yesterday on the present crop conditions, based on reports from nearly every township in the state. It shows marvelous improvement in all crop conditions and bright prospects. A million and a half acres of wheat will be cut, the average yield being between eight and nine bushels to the acre. In northern portions of the state the frequent June rains have improved the quality greatly. The corn crop will be enormous.

Japanese Fleet Coming.

San Francisco, June 22.—Private letters say that as soon as Japan's troubles in Formosa are settled Admiral Ito will be sent to San Francisco with the Matsushima and two or three other vessels of his fleet. The Matsushima is a single-masted cruiser of about the tonnage of the Olympia and, as Admiral Ito's flagship went through hard fighting at the Yalu and off the coast of Wei-Hai-Wei. One of her probable consorts here is the Naniwa, a sister ship of the Charleston, which began last summer's hostilities in the far east by sinking the transport Kow-Shing with all on board. Some of the objects of the cruise would be to show the sort of vessels that Japan has in her modern navy and to give their men experience in long voyages.

Emperor Lays the Last Stone.

Holtenau, June 22.—Emperor William visited the Russian armored cruiser Rurik at 9:30 o'clock yesterday and subsequently laid the last stone of the Baltic and North sea canal in the presence of many thousands of spectators. The weather was brilliant.

The great banquet which practically wound up the ceremonies took place last evening in the much-discussed structure representing the old German warship Niobe. Nearly 1,000 guests participated in the entertainment, including the diplomatic representatives of the various nations. The French Admiral Menard sat on the Emperor's right and the Russian Admiral Skrydloff sat on his left. Emperor William's speech was very pacific in tone.

Plot Against the Sultan.

Varna, Bulgaria, June 22.—A report has reached here from Constantinople that a state plot directed against the Sultan of Turkey has been discovered in the Pacifical military college. Thirty students were arrested yesterday evening and the arrest of others is imminent. The students declared themselves to be opposed to the present regime, which, they maintained, is transforming a peaceful population into a horde of savages.

Home for Widows and Orphans.

Omaha, Neb., June 22.—At the meeting of the Junior Order of Mechanics it was resolved to establish a national home for widows and orphans of members, to be located at Tiffin, O. The first week of April is to be known as orphan home week, all contributions during that time to be given to the home, and \$24,000 is already on hand to equip and maintain the home.

Caused by a Stroke of Lightning.

Wheeling, W. Va., June 22.—Yesterday while workmen were preparing an electric battery to explode a series of dynamite blasts in the Standard Stone Company's quarry at Rowlesburg lightning struck the wire and a premature explosion followed. Stephen Ringer and Adolphus McVicker were fatally injured by flying stones, and several other laborers were badly hurt.

IT MADE DR. PALMER BLUSH LIKE A GIRL

COL. J. A. WATROUS WRITES
OF THE DEAD SURGEON

The Colonel Knew Him in the Army And Tells, in His Paper, the Milwaukee Telegraph, How the Attention of the Privates Made His Face Redden With Embarrassment.

"There were many sad hearts in Wisconsin, last Saturday, when the wires announced the sudden death of General Henry Palmer, at his Janesville home," says the Milwaukee Telegraph, Editor Watrous having been quartermaster general at the time he writes of.

"When a young man he witnessed a portion of the Crimean war. In 1861 he entered the volunteer service as surgeon of the Seventh Wisconsin, later becoming surgeon of the Iron Brigade, and then was transferred to a leading general hospital where thousands of wounded and sick were under his charge. He was eminent in his profession, a dignified, courteous gentleman, and a patriot. He had served his city several times as mayor, and for nine years was surgeon general of Wisconsin, having succeeded the late General E. B. Wolcott, of Milwaukee. He was a man of the strictest integrity; his life was above reproach; his home one of the happiest in Janesville.

Blushed Like a School Girl.

"General Palmer was an active Grand Army man, a member of the Loyal Legion, had been at the head of the State Medical Society, and in his earlier days a professor in a medical college, and was prominently connected with a medical college in Chicago at the time of his death. General Palmer was a very modest man; blushed like a school girl on occasion. The first time I remember to have seen him was on Arlington Heights, Virginia, in November or December, 1861. He was passing the reserve of the brigade guard, near General King's headquarters. The guard fell in and presented arms, mistaking him for the commander of a regiment or brigade. Without answering the salute the young doctor looked at the officer of the guard, then the guard, and asked:

"Why sir! What does this mean?"
"We are saluting you, sir."
"What for?"
"It is our orders to salute the colonels and generals."

"Well, sir, I am only a doctor."

"Doctor, it is a mistake, but we are glad we saluted you."

Apologize to Privates.

"No boy or girl received a compliment that made them blush more than Dr. Palmer blushed on that occasion. Another occasion when Dr. Palmer blushed like a bride, is recalled. The First Regiment of the National Guard was in camp at Janesville. Surgeon General Palmer and the quartermaster general were riding into camp, uniformed and their stars glistening like diamonds. They were busy talking over old times, for both had served in the same brigade and both had recalled and were talking about troops in camp under very different circumstances. The guard fell in and saluted the two generals, but they were so intent in their conversation that they neither answered the salute nor looked up; in fact they did not know, until they had gotten into camp and were informed by an officer, that they had passed the guard without recognizing the courteous salute. The surgeon general took the quartermaster general's arm and said: 'We'll go right back and apologize to those soldiers.'

Popular With Guardsmen.

"On their way back the guard dismissed them and fell in and saluted them again, and that time the salute was properly returned. Then Dr. Palmer made a little speech and apologized for the seeming neglect of himself and his brother general. It was a sergeant in charge of the guard, then, and he replied to the general, stating the orders that the guard had to salute field and general officers, but said if he hadn't been answered the second time it was the last time he would ever call out a guard to salute a doctor and an issuer of rations and clothing. At first the doctor laughed merrily, and then, seeming to grasp the full meaning of the sergeant's remark, blushed more completely than he had laughed heartily. Dr. Palmer was always a great favorite in the army, and in the National Guard he was highly esteemed by both officers and men. There are few citizens of Janesville who would be more generally missed."

BICYCLE RACES DREW A CROWD.

First Matinee of the Cycling Club Was a Success in Every Way.

PEOPLE in Janesville are evidently interested in bicycle races for fully three hundred witnessed the Arrow club's first matinee at the Driving Park last evening and despite the rain that made racing uncomfortable for rider and spectator alike there was much enthusiasm. A stiff wind made the time slower than it would have been ordinarily and the rain made the track heavy yet the riders all did well. William Pennig was especially complimented, he making an exceptionally good showing despite the heavy handicaps given the greener riders. The one mile open race was declared off owing to the heavy track. W. R. Proudfoot, Dr. Joe Whiting and Dr. Charles Pierce officiated as judges in a very satisfactory manner. D. W. Watt and Oscar F. Nowlan were the timers with J. G. DeLong as starter and George Ewen as referee. Many ladies were present and had the weather been fine the attendance and the sport would have been much better. The next matinee will probably be given in about three weeks and will be similar to the one of last night. The results were as follows:

COMING EVENTS AT THE GROVE

Ice Cream Social, Flag Raising and War Songs Concert.

EMERALD GROVE, June 22—A lawn and ice cream social will be given at the residence of C. Dykeman, at Bradford Center, on Wednesday evening, June 26. The proceeds will be applied to the Center Sunday school fund. Ladies please furnish cake. The crowning event of the season will be the flag raising and grand picnic at Bradford Center Friday, June 28, 1895, at 10 o'clock a. m. The people will assemble at the church, where a patriotic program will be given by the school children, assisted by the G. A. R. post of Clinton. Addresses will be made by Superintendent Thomas and others probably from Clinton after which "Old Glory" will be run up on her standard by the veterans. Every one is most cordially invited to be present and assist in the patriotic demonstrations, cheering the youngsters to keep alive that spark of patriotism which burns within them and which will make them true citizens. The Congregational church choir of Clinton will give a "war concert" consisting of war songs, tableaux, &c., in the Congregational church at Emerald Grove, Tuesday evening, June 25, at 8 o'clock. The chorus consists of thirty voices, Charles Gault soloist, and the Murray orchestra. Admission twenty-five cents; children fifteen cents. Be sure and come early and get a good seat. Look out for program.

NOW, THE TIME TO MAKE MONEY.

Last month I cleared, after paying all expenses, \$23.38; the month before \$18.36 and have at the same time attended to my regular business. I believe anyone, anywhere, can do as well, as I have not a particularly good location and not much experience. When you have an article that every family wants, it is very easy selling it. It seems strange that a good, cheap dish washer was never before placed on the market. With the Perfection, which sells for \$5 you can wash and dry the dishes for a family in two minutes, without putting the hands in water. As soon as people see the washer work, they want one, and that is why so much money can be made so quickly. For full particulars address The Perfection Mfg. Co., Station O, Englewood, Ill. I feel convinced that any lady or gentleman, in any location can make \$5 to \$10 a day, as every family will very soon have a dish washer. Try it and publish your experience for the benefit of others. ALICE O.

THE DEATH OF DR. HENRY PALMER

SHARON Reporter—The death of Dr. Henry Palmer, of Janesville, was received in Sharon last Saturday morning, with deep regrets throughout the village and also the township, as the sad news spread. The doctor was widely known, his reputation as a skillful surgeon extending over the state, but more especially in the southern part where nearly every man, woman and child enjoyed his acquaintance. He possessed a spirit of generosity and philanthropy, and always marched in the front rank of every enterprise that had in it the well being of mankind. * * * The doctor's death has cast a deep gloom over the city in which he lived as well as over the state and other parts where he was known.

WHITEWATER Register—Dr. Palmer was one of the most distinguished citizens of the state, and was second to none in the practice of his profession. He was as well known nearly as the local physicians and surgeons in a majority of the towns and cities in southern Wisconsin. He was a man of great public spirit, and held many positions of honor and responsibility, and during the war made an enviable record as a man of courage in the field as well as of skill in the hospital. He was but sixty-eight years of age and had lost none of his mental energy and strength.

EDGERTON Reporter—Dr. Henry Palmer was one of the most distinguished and successful physicians and surgeons of Wisconsin. * * * He was admired by the war veterans and thousands of personal friends throughout the state not only for his skill as a physician and bravery as a soldier, but for his gentlemanly and scholarly qualities as well and his unimpeachable integrity.

DARLINGTON Journal—Dr. Palmer had been an active practicing physician for more than forty years, and was considered one of the best surgeons and physicians in America. DELEVAN Republican—Dr. Henry Palmer, the distinguished physician and surgeon of Janesville, was found dead in his bed last Saturday morning. He was sixty-eight years of age.

ELKHORN Independent—Dr. Henry Palmer, one of the best known citizens of Wisconsin, and surgeon, was found dead in his bed in Janesville last Saturday morning.

MILTON Journal—He had been twice elected mayor of Janesville. He was very prominently and widely known throughout Wisconsin and Illinois.

EVANSVILLE Review—As a surgeon he was among the most skilled and his practice was one of the most extensive in the country.

Mrs. Chugwater—Josiah, I don't understand this talk about the market value of silver. Isn't silver always the same price?

Mr. Chugwater—O, no. It varies more or less every day. In fact, it's cheaper at one time of the day than it is at another.

Narcoti-Cure

It Cures while You Continue the Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure. A lifetime's suffering ended for \$5.

Why smoke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way. Drive the nicotine from your system by use of this wonderful remedy.

Narcoti-Cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking, Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good.

Then throw away tobacco forever.

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures.

Send for book of prominent testimonies like the following:

HUNTINGTON, Mass. Mar. 18, 1895. The Narcoti Chemical Co., Springfield, Mass.

Gentlemen—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals.

On Monday, February 4, I called at your office in Springfield, and bought a bottle the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned.

I did not lose a meal while taking the cure. My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,
CHAS. I. LINCOLN.

Mr. Frank H. Morton, of C. Leone Fair, Mass. late Inspector of Public Buildings for Massachusetts, says:

I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very respectfully,
FRANK H. MORTON.

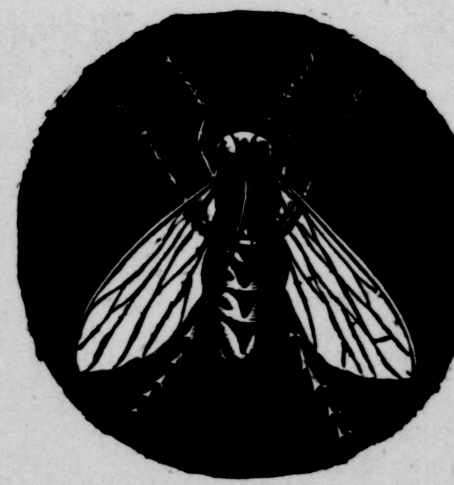

If your druggist is unable to give full particulars about Narcoti-Cure, send to us for Book of Particulars free, or send \$5 for bottle by mail.

Doubt About Insurance.

THIS DAY IN HISTORY

1527—Nicholas Machiavel (better known as Machiavelli), Italian statesman, who reduced intrigue to a science, died; born 1469. Machiavelli held the office of secretary to the ten who managed the diplomatic affairs of the republic of Florence. In that capacity he successfully carried out several missions to France. The Medici banished him from Florence. In his retirement he wrote upon the art of war and also the book "Del Principe," which has consigned his name to infamy. The last was prepared for the private use of Lorenzo de Medici. Heliam and Macaulay contend that Machiavelli has been misrepresented, misunderstood and traduced.

1806—Emile de Girardin, journalist, red republican and speculative writer, born in Paris; died 1881.

1864—At 9 p. m., in Smith's sound, Captain Schley's command reached and rescued Lieutenant A. W. Greeley and six others, only survivors of the Greeley expedition to Lady Franklin bay.

CHARACTER BUILDING.

The race of life is so uneven, and mishaps so frequent and disastrous, that it is not at all strange that discouragement and disappointment are the rule rather than the exception. It is estimated that more than ninety per cent of the men who engage in mercantile business fail, sometime during their career. In the professions the percentage of men who fail to gain prominence or wealth is equally large. If these conditions exist in this land of opportunities and exalted privilege, how much more startling must they be in sections where dense populations and ignorance combine to make life a burden rather than a blessing.

If this life was all, and the crowning glory of existence closed at the end of the earthly pilgrimage, disappointment would more frequently displace the soul anchor hope, and the three score years and ten would seldom be realized.

The belief in immortality is so universal in all lands, that to discard it, requires a spirit of recklessness that but few men possess. This belief that comes as an endowment and the most important equipment of every healthy soul, may be so intangible that no argument can define it. The struggle for existence, may be so sharp and severe, or the cares and pleasures of life may be so absorbent, that but little if any attention, is given to the immortal germs, and yet it exists unheeded and neglected, faithfully performing its mission. It stands above all creeds or dogmas, the individual inheritance and birthright of the individual life, and in the hour of sorrow and adversity, fills the soul with hope of immortality. It is negligence and not unbelief that causes so many people to neglect the one avenue of life, that knows no competition, and in which every worker has an equal chance. That avenue is character building, more important than any other for the two-fold reason that it is the only capital that stands the test of time and the best equipment for the present life. Any young man or any young woman who makes the development of character a study, enters active life with an endowment better than money and more certain of winning the prizes.

Every avenue of work, from the most menial to the most exalted, is demanding character, and the supply never equals the demand. The intelligent laborer, honest in his work, conscientious, economical, energetic and thrifty, seldom lacks for opportunity to work, he has cultivated character. The young man who enters the channels of business, thoughtful, observing, courteous and honest to a fault, wins his way to the front, because he possesses character.

Money may prove a great blessing. Honors may produce happiness, reputation may gain recognition and prominence, but character is the foundation of true man and womanhood, the source of peace and lasting satisfaction, and the only thing that endures. Character building is important, and should never be neglected.

THE CLEVELAND CONVENTION

The republican national league convention that closed last night at Cleveland was the most noted party gathering that will be held before the national conventions next year. With representatives from every state in the union, and with the diversity of opinion that would naturally follow, it is gratifying to note that the convention was a unit on all questions that are considered vital to the interests of the party, or general welfare of the country.

The silver contingency from the west, with a few stragling apostles from other sections were clamorous in their demands for recognition, but the convention possessed the wisdom to steer clear of a question that was outside of the jurisdiction and that it was in no way obligated to recognize.

The Republican party can we

afford to let democracy fight out the problem on which the party is so much divided, and trust to the convention of 1896 to adjust whatever fragments of disaffection, if any that may require attention at that time.

with returning prosperity as the result of prospective wise national legislation, the silver question will settle itself, so far as the republican party is concerned, and questions of more grave importance will command attention. This fact the Cleveland convention recognized, and the policy outlined and emphasized is in hearty accord with the principles that have long characterized the party that will soon take control of national affairs.

Protection to American labor, and a revenue sufficient to pay running expenses, is the sentiment not only of the Republican party, but of a large majority of intelligent voters who were led to believe that tariff reform and "a change" was desirable two years ago.

The enthusiasm attending the Cleveland convention, and the good sense displayed are forerunners of the tidal wave that will sweep over the country next year.

ENFORCE THE PHARMACY LAW.

Druggists Must Comply With The Regulations or Pay a Fine.

At the meeting of the State Board of Pharmacy held at Madison, four cases were reported as being in the courts, and district attorneys were directed to proceed with the same. Numerous complaints were received from pharmacists all over the state that some druggists were leaving their stores with young boys in them, not registered, and they sold poisons at all times, and that the board would give notice that it is the intent of the law that none but registered and competent pharmacists are allowed to sell poison at any time, and that they should prosecute all such cases coming to their notice, and proceed against both proprietor and clerk. The entire fine of \$50 in every case goes to the school fund. The law requiring druggists to keep a poison register will also be enforced, and certainly should be where all can see it, and the public should be careful about buying drugs or medicines in any store where there are no certificates displayed.

The Season's Event Only Two Days Away.

Plans are being made by a great many to attend the Early Settlers' picnic next Tuesday, June 25. On every hand we hear people discussing the subject, and from appearances, Crystal Springs Park will have the largest gathering on its spacious grounds it has ever had. The committee on arrangement are to be congratulated on preparing such an attractive programme. The speech by Mr. Jeffris, followed by three minute talks by members of the society, and the musical part of the programme, saying nothing of the pastimes provided aside from this will make a day that will long be remembered by everyone attending. Make your plans to go, it will be a genuine day of pleasure and rest. Tuesday next is the date.

FIGHT WITH GIANT POWDER.

Unique Battle Between Miners at Rico, Colo., Still Continues.

Rico, Col., June 22.—The war between the miners of the Rico-Aspen and Enterprise mines still continues. It began Tuesday, when the men were drifting on a vein and the miners from both mines met on disputed territory. The Enterprise people tried to smoke the others out by exploding giant powder and dynamite. Several men were overcome by the smoke and one was badly placed on duty, but the fighting with explosives goes on as at first. The Rico-Aspen men are taking out the ore and the Enterprise men are smoking them. The ore in the disputed territory is worth \$300 a ton.

A \$4,000 FARM FIRE RAGED LAST NIGHT

STEPHEN FANNING OF JOHNSTOWN, LOSES HEAVILY.

Barn Was Ignited By a Bolt of Lightning and The Flames Soon Swept The Place Clear of Buildings—Little Insurance On the Property—City News.

A destructive fire took place last evening on the Stephen Fanning farm which is situated two miles north of Johnstown. At the time of the fire the family were in bed, and the blaze was first discovered at 10:30 in the evening. The barn was then enveloped in flames and it gradually spread to adjoining sheds and barns until a one half acre of buildings were a total loss. All that saved the house was the direction of the wind, which blew the other way. It is thought the barn was struck by lightning during the storm. The loss will be \$4000 with but little insurance so Mr. Fanning will feel it keenly.

FIRST LEGAL STEPS IN THE LAND CASE

RICHARDSON HEIRS ARE AFTER THEIR FATHER'S ESTATE.

The Attorneys For The Defense Demurred To The Complaint and the Arguments Were Made Before Judge Bennett Yesterday Afternoon Two Test Cases Now Under Way.

The first legal steps in the somewhat celebrated "Richardson land case," were taken yesterday afternoon, when the matter came before Judge Bennett in the circuit court on the demurrer of the defendant's attorneys.

The arguments were made, and Judge Bennett took the case under advisement. The case is one of two begun in the circuit court. The present case is entitled "Adam Rudolph Richardson vs. Jacob and Julia Nelson," the second one being brought against J. M. Bostwick, J. L. Bostwick and R. M. Bostwick, to recover an interest claimed in the property occupied by them as a dry goods store on South Main street, this complaint having been recently filed. The arguments on demurrer yesterday were on the action brought by Henry S. Sloan and Smith & Pierce on behalf of Adam Rudolph Richardson, of Bloomington, Ill., a son of D. A. Richardson by his first wife, to recover his interest in lot 18, Smith, Bailey & Stone's addition to the city of Janesville.

The defendants in this action are Jacob Nelson and Julia Nelson, his wife. This is the first action begun in Rock county, and if Mr. Richardson is right in his claims, he is entitled to recover from all persons holding title by conveyance of land that was owned by Daniel A. Richardson at the time of his death in 1850.

The Defense's Claim.

Attorneys A. A. JACKSON, B. B. Eldredge and Whitehead & Smith for the defendants, demurred on the ground that the action was barred by the statute of limitation, that there were other plaintiffs besides the one in whose behalf the suit was brought, and that the complaint did not state a cause of action.

The plaintiff's attorneys, Henry S. Sloan and Smith & Pierce with Hon. I. C. Sloan as counsel, held that the complaint did state a cause of action, that the plaintiff could maintain a separate suit, etc.

This case is the first of a series to begun and for the property at stake in Rock County will amount to about \$100,000, while the Green County estate—the present case being a test in that action as well—will aggregate \$200,000 in value.

The present case is not begun to collect the dower interest of Mrs. Spaulding, as many think, but is the question of the claims of the heirs of Daniel Richardson, independent of the Spaulding case which ended with Mrs. Spaulding's death last March.

The Allegations Made.

The plaintiff in his complaint alleges that in 1850 Daniel Richardson died in Janesville, intestate, and leaving a large estate in Rock, Racine, Green, Lafayette and Iowa counties; a widow and seven minor heirs surviving him. The estate, the complaint further alleges, went through an alleged settlement in the county court; that no guardian ad litem was appointed for the heirs, that the property was sold at an alleged administrators sale at which the attorney of record, for the administrator purchased the same through the conspiracy and fraud of the administrator and his attorney, thereby depriving the plaintiff of his rights. It also states that the plaintiff had never discovered the fraud which constitutes the cause of action until just prior to the commencement of the same.

The plaintiff, Adam R. Richardson, was three years old at the time of his father's death, and now claims that as one of the seven minor heirs, he is entitled to one seventh of the estate in question. The case will doubtless go through the supreme court.

TWO DIVORCE CASES BEFORE THE COURT

EARNESTINA KRIEG OF EMERALD GROVE, FREED.

Her Husband Runs the Village Tavern and She Charged Him With Cruelty and Drunkenness—Property And Children Given to Her—Mrs. Benwitz's Troubles Similar.

Emerald Grove now comes forward with the latest sensation in the line of divorce proceedings, the defendant being Frederick Krieg, proprietor of the hotel in that place. Earnestina Krieg, wife of Frederick, some time ago brought an action in the circuit court before Judge Bennett for divorce, her complaint charging cruel and inhuman treatment on the part of her husband. The case was heard yesterday afternoon, the defendant not appearing. John Cunningham appeared as the plaintiff and as the testimony showed that Frederick apparently loved the flowing bowl better than his wife and children, and when under the influence of liquor which was quite frequently, he was so abusive that they were afraid of him. When drunk he appeared crazed and would use bad language to his wife, as well as raving and tearing his own hair. They had been married about fourteen years, and had three children. They owned the hotel at Emerald Grove besides some personal property. The testimony of the plaintiff being corroborated by another witness the decree of divorce was ordered, and an order was also issued giving the plaintiff the title of the hotel, and all the personal property, besides the care and custody of the children. The order further stipulated that the defendant should have the privilege of visiting his children, provided he visited them when sober, and behaving himself as a father should, but not otherwise.

"Cruel and inhuman treatment" appears to be the prevailing grounds for divorce proceedings. Matilda Benwitz has brought suit before Judge Bennett demanding a divorce from her husband, Frederick Benwitz on that ground, coupled with habitual drunkenness. This afternoon, on motion of E. D. McGowan, attorney for the plaintiff, Judge Bennett issued an order directing the defendant to pay the plaintiff \$25 suit money. The testimony in this case will probably be taken next week. The parties reside in the city. Sutherland and Nolan are attorneys for the defendant.

NOBILITY OF THE DONKEY.

He Used to Be Classed Among the Great Ones.

The donkey, who rather undeservedly has come to be considered one of the "naturals" of the animal world, was dedicated by the ancients to Bacchus, while the ass of Silenus was raised to a place among the stars. Apparently he was a more intellectual personage in early days than he is supposed to be at present. Ammonianus, the grammarian, possessed one who invariably attended his master's lectures on poetry, and would even leave the choicest luncheon of thistles to do so. "Wicked as a red ass" ran an old proverb, which the Copts believed in so firmly that every year they sacrificed an unhappy animal of the detested color by hurling it headlong from a wall. In an old black letter translation of Albertus Magnus the donkey figures in the following extraordinary recipe: "Take an adder's skyn, and auri pigmentum, and greeke pitch of reupiriticum, and the waxe of newe bees, and the fat or grease of an ass, and breake them all, and put them all in a dull seething pot full of water, and make it to seethe at a glowe fire, and after let it waxe cold, and make a taper, and every man that shall see light of it shall seeme headlesse." Burton, in his "Anatomy of Melancholy," mentions as a valuable amulet, "a ring made of the hoofe of an asse's right foot carried about." A tract written by a certain "A. B." in 1595, entitled "The Noblesse of the Asse," is exceedingly laudatory of that excellent animal. "He refuseth no burden; he goes whither he is sent without any contradiction. He lifts not his foote against anyone; he bytes not; he is no fugitive, nor malicious affected. He doth all things in good sort, and to his liking that hath cause to employ him." But what chiefly fills the worthy author with admiration is the donkey's voice—his "goodly, sweet, and continual brayings," which form "a melodious and proportionate kind of musick."

Travelers find a safe companion in De Witt's Colic and Cholera Cure. A change in drinking water and diet, often causes severe and dangerous complaints. This medicine always cures them. C. D. Stevens.

A Most Magnificent Heirloom
Is health. No gem in tiara or coronet is so precious. Per contra, a hereditary tendency to disease, often proves a fatal legacy, since the most trifling causes may fertilize the latest germs of ill health, and render the fruitage deadly. An inherent transmitted weakness of the physical constitution is more effectually opposed and counteracted by Hostetter's Stomach Bitters than by any other safeguard. Digestion and assimilation promoted, due biliary secretion, action of the kidneys and bowels insured, are so many guarantees of permanent health, and these are the consequences, among others of like importances, of a resort to the Bitters. This medicine also prevents and remedies malarious complaints, nervousness, chronic insomnia, rheumatism and neuralgia. Such warnings as loss of appetite and sleep, too, should not be disregarded. The Bitters will restore both without fail.

THE MICROSCOPE.

A careful microscopical examination and chemical analysis of the urine, is a valuable aid in determining the nature of many chronic diseases, particularly those of the nervous system, blood, liver, kidneys, and bladder. These aids make it possible to treat such diseases successfully at a distance, without personal examination of the patient. Thus Bright's Disease of the Kidneys, Inflammation of the Bladder, Gravel, and other Diseases of the Urinary Organs are successfully treated. Nervous Debility, Exhaustion, Dropsy, Liver Disease, and many other Chronic Maladies are cured without seeing the patient. Write for question blanks, treatise, and other information, describing case, and inclose 10 cents, in stamps, to pay postage.
